Enthusiastic and self-motivated software developer and sales executive with 1 year of experience in both fields. Proficient in back-end development, visual design, and sales techniques. Eager to leverage my diverse skill set to contribute to innovative projects and deliver exceptional results. Committed to continuous learning and staying updated with emerging technologies to drive business growth and exceed client expectations.

Experience

Back-end developer and intern - Ibtikar

2020-2021

- Acquired certifications in Java, Python and SQL
- Worked closely with experienced developers and other team members.
- Made SQL queries and worked with database abstraction layers and ORMs resulting in a 30% reduction in average query execution time
- testing and debugging code to identify and fix issues, writing unit tests, conducting integration testing, and using debugging tools with 85% code coverage leading to a 30% decrease in bugs
- Was involved in handling user input, implementing animations, managing state, and integrating with back-end APIs.
- Wrote clear and concise documentation for codebase.

Customer service and sales executive - Expo 2020 Dubai

2021-2022

- Took many courses and a lot of training in customer service and sales.
- Increased sales by 30% in the sustainability district.
- Was awarded employee of the month by the managers.
